PROFESSIONAL EXPERIENCE

ATOS | Senior Release Train Engineer / Program Manager **Sep 2025 – Present**

Client: **Global insurer** · *Core API, Customer Engagement & Compliance AI*

- Govern releases for 30+ teams and 200+ people, leading the cross-team call on dependencies, risks and go/no-go calls.
- Steered a hybrid AI and RAG compliance engine to production, cutting onboarding false alarms from 30% to 10–15%.
- Averaged 95%+ of planned work delivered each planning cycle (ART predictability), with under 5% sprint variance.

ATOS | Technical Product Manager / Release Train Engineer **Sep 2022 – Aug 2025**

Client: **John Hancock** · *Boston, USA (On-site)*

- Restarted a multi-million-dollar platform program stalled for two years by COVID, clearing 400+ backlog tickets in 9 months.
- Took all 5 modernization initiatives live across 20+ business divisions, with estimates within 10% of actuals.
- Migrated all teams off AWD's legacy EnCorr and Viewstation desktops onto SS&C Chorus BPM before handover in Aug 2025.

ATOS | Senior Scrum Master / Agile Project Manager **Sep 2020 – Aug 2022**

Client: **Allstate**

- Moved production deployments from monthly to near-weekly for systems reaching 20M+ Allstate and 400K Encompass policyholders.
- Cut program cost 25% without hiring and raised team velocity 30% through hands-on Agile coaching.

EARLIER | Syntel, Cognizant, Dell Technologies **2013 – 2020**

- **TruStage (Syntel):** Shipped every production release defect-free with a layered automated test framework.
- **MetLife & Anthem (Cognizant):** Migrated 4,500+ policy documents with zero defects; saved $300K a year by consolidating legacy templates.
- **Walmart (Cognizant):** Resolved 50+ critical P1/P2 outages and 120 high-priority incidents on the mainframe Order Management System.
